

The DiSTI Corporation Launches Newly Redesigned Website
The world's leading provider of virtual maintenance software and HMI solutions premieres its new streamlined digital presence.

Orlando, FL (June 21, 2021) – The DiSTI Corporation, the global leader in virtual maintenance training solutions and HMI development software, headquartered in Orlando, Florida, today announced the launch of its new corporate website at www.disti.com.

"As we drive the development of our cutting-edge technological solutions, showcasing their capabilities becomes even more paramount to our business growth. The new website has been designed to offer the ultimate user-friendly experience with improved navigation and functionality. Our goal was to allow customers to see the full product portfolio DiSTI offers across all markets," stated DiSTI CEO John Hayward.

Created with the user experience in mind, DiSTI's new mobile-friendly website includes many new features to help users quickly and easily navigate the site to find the information they seek.

New features include:

- Rapid Response Functionality allowing the site to be compatible with all browsers and mobile devices.
- Product and Solution filters which allow users to quickly find information in the DiSTI portfolio.
- Information requests are now easily made through new form functionality, making the process faster and streamlined.
- Singular digital presence for all of DiSTI related information, literature, and marketing materials.

Visitors to the new site can stay informed with the latest DiSTI industry news through the resources section - home to press releases, brochures, white papers, case studies, and training events. Users will now be able to keep up-to-date with the latest DiSTI offerings, such as webinars focused on our products such as GL Studio® and VE Studio®.

Updating regularly with news regarding product launches, solution developments, essential services information, and corporate milestones, the website will remain a wealth of information for viewers. Visitors are encouraged to explore the website and sign up for DiSTI's newsletter at <https://www.disticom.com>.

###

About The DiSTI Corporation

The DiSTI Corporation is the world's leading provider of 3D virtual training solutions and graphical user interface software. DiSTI's VE Studio is the world's leading virtual training development platform for managing the creation of complex 3D virtual environments for use on desktop, mobile, and virtual and mixed reality training applications.

GL Studio delivers advanced high-performance 3D user interfaces to the aerospace, automotive, medical, and training industries. Whether for avionics, instrument clusters, infotainment systems, medical devices, or flight simulators, GL Studio exceeds the developer's interface demands.
