## **The DiSTI Corporation Completes Quality Management System Audit**

*The DiSTI Corporation successfully completes its ISO 9001:2015 surveillance audit.*

**Orlando, FL (August 15, 2023)** – DiSTI, the leading global simulation and training software provider, announced today that it had completed its ISO 9001:2015 surveillance audit with zero non-conformances at its facility in Orlando, Florida.

The extensive review process took place in late June. The audit included thoroughly vetting and examining DiSTI's dedication to exceeding customer requirements, on-time delivery, innovation, continuous improvement, and effectiveness in monitoring customer satisfaction.

"I am proud to continue our commitment to excellence. Achieving consecutive audits without any issues demonstrates how seriously we take our work," said John Hayward, DiSTI's CEO. "Our clients can all attest to the quality systems we have in place as well as to the diligence of our team. As a result, our customers know they are receiving the best products in the market."

ISO 9001:2015 is a globally recognized quality management standard developed and published by the International Organization for Standardization (ISO). The certification provides a model for companies of all types and sizes to build an effective quality management system.

Perry Johnson Registrars, Inc., an accredited certification body, conducted the DiSTI surveillance audit. The audit validated improvements to the DiSTI quality program in keeping with the ISO 9001:2015 standard's 'process-oriented approach with an additional focus on risk-based thinking, expanding to a broader organizational context, addressing the needs and expectations of interested parties, and collection and sharing of organizational knowledge. Perry Johnson Registrars issued DiSTI an updated ISO 9001:2015 certificate for DiSTI's new facility.
