DiSTI Secures CBID III Program Contract in Collaboration with Hatalom

The DiSTI Corporation and Hatalom Secure CBID III Program Contract, Elevating Military Training Standards.

Orlando, FL (July 22, 2024) – The DiSTI Corporation, pioneers in virtual training solutions, and Hatalom, a leading provider of instructional design services, are pleased to announce our team's success in securing the Computer Based Instructional Development (CBID) III program contract win with the U.S. Army's Program Executive Office for Simulation, Training, and Instrumentation (PEO STRI). The is a single award Indefinite Delivery/Indefinite Quantity (ID/IQ) contract, named Computer Based Instructional Development (CBID) III, with a substantial ceiling of \$49.3 million over the next five years.

This collaborative effort marks a significant milestone in advancing instructional development capabilities for military training systems.

Under the CBID III program, The DiSTI Corporation, Hatalom, and the remainder of our team will leverage their combined expertise to deliver cutting-edge instructional technologies tailored to meet the evolving needs of military training environments. With a focus on innovation and quality, the partnership aims to enhance the effectiveness and efficiency of training programs across various defense sectors.

"We are thrilled to have been awarded the CBID III program contract in partnership with Hatalom," said John Hayward, CEO of The DiSTI Corporation. "This collaboration underscores our commitment to delivering high-performance solutions that empower military personnel with superior training experiences."

Through its advanced simulation and training platforms, The DiSTI Corporation has established itself as a trusted provider of immersive learning solutions for defense organizations worldwide. By joining forces with Hatalom, a recognized leader in instructional design and development, the partnership is poised to drive innovation and excellence in the field of computer-based instruction.

The DiSTI Corporation and Hatalom are committed to delivering exceptional value and performance throughout the duration of the CBID III program. Their collaborative approach and dedication to excellence are poised to set new standards in instructional development for defense training systems.
